EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 5, line 20, "positioned" has been changed to -- positions --.

Claims 1-4 have been canceled.

2. The above change to claim 5 has been made in order to correct a minor grammatical error. Claims 1-4 have been canceled as drawn to an invention which was non-elected without traverse. See Election/Restriction Requirement set forth below.

Election/Restriction

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a necklace, classified in class 63, subclass 3.
- II. Claim 5, drawn to a method of manufacturing a necklace, classified in class 28, subclass 149.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by a different process, such as by holding the yarn in one's hands while intertwining and fraying it, rather than using a jig.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. During a telephone conversation with Richard Goldstein on May 17, 2004 a provisional election was made without traverse to prosecute the invention of Group II, claim 5. Affirmation of this election must be made by applicant in replying to this Office action. Claims 1-4 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance: Claim 5 is allowable because the prior art do not disclose a method including steps of choosing strands of yarn to be utilized in a necklace, cutting the lengths of the strands according to the desired length of the necklace, wrapping the strands of yarn around a jig by placing the strand middle portions around the jig cut away portions and dangling the

strand ends toward the jig bottom end, wrapping the strand ends until the entire length of strands are intertwined together, securing the ends with a cap, fraying individual filaments in various strands at various positions along the strands, fastening a clasp to each cap, and mating the clasp portions to connect the first and second ends of the necklace.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amy B. Vanatta whose telephone number is 703-308-2939. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Calvert can be reached on 703-305-1025. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
